

RESTORATION OF THE OLD TEACHER'S HOUSE – Hundertbücheln Movile, Romania

The Project

The Teacher's House is in severe danger of collapsing. Churchfortress e.V. - Friends of Hundertbücheln - Movile, undertook first safeguarding measures on the house in 2015. This building is an example of a historic village house and lies opposite the old German school associated with the fortified church.

Part of the project includes renovating the Teacher's House in a traditional manner. This allows us to show how village houses in Siebenbürgen can be refurbished without losing their original character. In future the teacher's house is intended to be used as a future centre for education and intercultural exchange.

Participation

Construction workshops and repair works take place regularly during the summer months. We can always use a pair of helping hands: be these individuals or groups of professionals, or simply curious laymen - there is always something to do.

You are also more than welcome to visit us in Hundertbücheln as part of scholastic or university related excursions and projects. Over the last few years, we have already successfully developed several projects together with students from landscape maintenance and restoration backgrounds.

Donations

We are grateful for any support for our project so as to save the Teacher's House. from further deterioration.

Along with the many working hours put in by volunteers, we also require building materials, tools and of course the necessary spending money.

For any donations in kind, please enquire beforehand.
